

## Ready Responses To Sexism

- “I’d rather you use...”
- “You’re not discriminating, that word/action is discriminating.”
- Change the topic (stops a sexist comment from turning into a sexist conversation).
- “I have studied and talked to people who identify as \_\_\_\_\_, and in my understanding that is not their experience.”
- When you see someone excluded, stand beside them, listen to them, and say “How are you feeling?” or “That was unfair.”
